

Site Supervision and Site Management qualifications

Building a successful career with
the Chartered Institute of Building.

SITE SUPERVISION AND SITE MANAGEMENT QUALIFICATIONS

Do you want to develop your knowledge, skills and improve your career prospects?

CIOB qualifications in Site Supervision and Site Management can help you succeed in an exciting and challenging career. The unique syllabus is designed to develop the confidence, knowledge and hands-on skills to manage a modern construction site.

The CIOB Site Supervisory and Site Management qualifications have been well regarded in the industry for over 30 years and the qualifications are now on the Qualifications and Credit Framework (QCF), allowing credit transfer and progression to further and higher education.

The CIOB Site Supervision and Site Management qualifications give you:

- The skills and confidence to manage and co-ordinate all types of construction projects
- A nationally recognised certificate or diploma qualification
- Membership of a professional body widely valued in the industry
- Career progression into management roles
- Progression to higher education or S/NVQs /Construction Skills Certification Scheme (CSCS) registration.

CIOB qualifications improve your knowledge and competence and fit in with your busy work schedule. We offer:

- Flexible programmes that can be tailored to the individual needs of the learner

- Build up your learning at your own pace
- Assignment based assessments which develop your competence in the workplace
- Individual accredited unit certification
- Blended learning modes of delivery – including block release and distance learning
- Access to funding through the Skills Funding Agency
- Approved centres across the UK.

Free Student Membership is offered for the duration of the courses, allowing the relevant upgrades to ACIOB and ICIOB when the learner has successfully completed the required course units as specified.

CIOB Level 3 Diploma in Site Supervisory Studies (QCF) – ACIOB

CIOB Level 4 Certificate in Site Management (QCF) – ACIOB

CIOB Level 4 Diploma in Site Management (QCF) – ICIOB

For further details on CIOB membership please contact Membership Administration on 01344 630706 or memenquiry@ciob.org.uk

Dawn Parias
MCIQB

Dawn Parias successfully achieved her Site Management Diploma in 2006 following a career change from a sales role. While working for an interiors company, Dawn came into regular contact with site managers and developed an appreciation of the challenges of the job. This experience inspired her to change direction and take up a new career in site management.

Dawn says “The CIOB Site Management Qualifications helped me achieve my ambitions, giving me the confidence and hands-on skills to succeed in an exciting and challenging career.”

After working for 9 years managing various construction sites, Dawn went on to become a full Chartered Member of the CIOB and now works for a training company delivering the CIOB Site Supervisory and Site Management programmes. Dawn is very passionate about the industry and feels that the CIOB programmes offer a unique, practical, nationally recognised qualification as well as an industry recognised professional body membership. She says:

“The CIOB Site Management qualifications provide an ideal route for site operatives and supervisors to progress their careers into a management role.”
